Building Bridges to the Future of a Distributed Network:

From DiRT Categories to TaDiRAH, a Methods Taxonomy for Digital Humanities

Jody Perkins, Miami University Ohio, Quinn Dombrowski, UC Berkeley
Christof Schöch, University of Würzburg, Germany, Luise Borek, Technical University of Darmstadt, Germany

Accomplishments and Future Milestones:
- Map three related source taxonomies
- Produce a single taxonomy suitable for sharing across use cases
- Release for public review
- Integrate community feedback
- Publish revised human readable version
- Implement across selected use cases
- Publish machine readable versions (SKOS, SPARQL interface)
- Experiment with integration across use cases

Influences

Sources

The arts-humanities.net taxonomy of DH projects, tools, centers, and other resources

Categories originally used by The DiRT Directory of digital research tools

The DARIAH ‘Doing Digital Humanities’ Zotero bibliography of literature on all facets of DH
