Working Session

Community/Task Group: Libraries Community

Convenors:
  Stefanie Rühle, Götingen State and University Library
  Sarah Hartmann, German National Library

Day/Time: Thursday, 14:30-16:00

In this session PubMan (http://pubman.mpdl.mpg.de/pubman/faces/HomePage.jsp), a repository with a Dublin Core based metadata format will be introduced. Further we will present the Best Practice Guide for RDF representation of bibliographic data by the KIM AG Titeldaten (https://wiki.dnb.de/pages/viewpage.action?pageId=68060017) and the publishing and maintenance of Linked Open Data by the example of the Standard Thesaurus Wirtschaft (http://zbw.eu/stw/versions/latest/about).

Agenda:

- Welcome and Introduction
- Using Dublin Core for Repository Software PubMan (Andrea Wuchner, MPDL)
- RDF-representation of bibliographic data – a best practice guide of the KIM AG Titeldaten (Stefanie Rühle)
- Constantly Under Construction. STW Thesaurus for Economics Linked Data Maintenance (Joachim Neubert, ZBW)
- Discussion
- Closing

This meeting is intended to be accessible to all, including those who have not previously attended DCMI events. The participation of newcomers and non-experts is encouraged. If you have any immediate questions about the meeting, please contact Stefanie Rühle (sruehle(a)sub.uni-goettingen.de) or Sarah Hartmann (s.hartmann(a)dnb.de).
