NKOS bibliography project on github

https://github.com/PhilippMayr/NKOS-bibliography

Philipp Mayr

• Created a NKOS bibliography on github;
• started to include US workshops too;
• submitted a paper analyzing the bibliography data to the NKOS SI.

• Encourage more contributors.
• Long term plan: extent the scope to formal NKOS publications (journal papers, books, conference papers), to generate a real bibliography. Adding citation data and so on.
